BOOMERS HAPPY.

They Can Scarcely Wait for the Opening Day.

JOLLIFICATIONS THOUGHOUT THE SOUTHERN PART OF KANSAS

Over the Proclamation of President Harrison—Soldiers Scouring the Country to Help the Boomers Out—Trouble Anticipated—Final Surveys for a Railroad Being Made.

WICHITA, Kan., March 29.—The long looked for proclamation for the opening of Oklahoma was received here with demonstrations of great joy. Flags were hung from buildings, cannons were fired, and bonfires built. The same enthusiasm welcomed the news all over South Kansas. Extensive preparations are being made for entering the country, and some of the towns of Southern Kansas will almost be depopulated.

The boomers who have been camped along the line are making ready to move. The cattlemen are hurrying on to Oklahoma to get their cattle, as they fear violence to stock and property from their deadly enemies, the boomers. The soldiers have left Oklahoma City. The boomers made bold to come out of their concealment in the woods to hear the news. The crowd kept on swelling in size and it was estimated that there were 800 persons that rejoiced over the news.

Col. Summers received from Col. Wade, at Fort Reno, the new orders from Washington, and posted them up in the Oklahoma depot. They were that every person must immediately leave the country, and that the names of those found would be taken and kept to defeat future filing. Soldiers had left Fort Reno the night before, and are advancing to Oklahoma City, securing the country as they advance.

As soon as the order was posted many commenced leaving; but, by the time the train reached Guthrie, the news of the issuing of the proclamation was received, and they alighted to join the boomers here in their celebration and to be near to their claims.

At Purcell there was the same wild enthusiasm, only by greater numbers. Claims are being rapidly taken up, and there is hardly a good selection of land that has not one or more claimants.

Fights are daily occurring. Tuesday night a swede from Cold Harbor, Kan., while contesting a claim twenty-four miles west of Oklahoma station, was fatally shot by his opponent. The poor fellow's eye was blown out, and his face filled with buckshot. He was brought to Arkansas City to a surgeon, but died after being taken from the car. His friends, fearing the effect of having their names made public, gave out that it was an accident.

Men have already sold their rights to claims for \$400 and \$500. A boomer arriving from Oklahoma says the country is full of people that the number is constantly increasing, and that he believes it is impossible to keep them out.

A Railroad on the Way.

TOPEKA, Kan., March 29.—Immediately upon the announcement that the president had issued the Oklahoma proclamation officials of the Rock Island railroad and a corps of engineers started from this city to make the final survey for the extension through the Indian territory. The road is built as far south as Pond creek, some twenty-five miles below, in the Cherokee strip, at which point construction will begin.

The proclamation by which Oklahoma is opened designates Kingfisher as the land office for the Western district. This is at present a stage station, situated on Kingfisher creek, a southern tributary of the Arkansas. It is on the projected line of the Rock Island and some ninety miles south of the Kansas line. It is stated that the railroad company will push its lines to Kingfisher as soon as possible. It is not at all likely that the extension will stop there, as Fort Reno is but a score or so of miles further on, at which point there are 600 to 800 troops stationed, which will create a demand for supplies and transportation.

A BUNGLING JOB.

A Disingusting Scene at the Execution of Francis and Turney in Tennessee.

LEBANON, Tenn., March 29.—Mark Francis and Jim Turney, both colored men, were hanged Wednesday for murder. Their crime was one of the most cold-blooded nature, they having shot to death a half-witted young colored man solely for the purpose of robbing him of \$7, which they had seen in his possession at church. They followed him along a lonely road and both emptied their pistols into his body. They were overheard plotting the crime, and their conviction was easily secured.

Both, however, denied their guilt, and up to Tuesday afternoon, when Francis made a full confession to his religious adviser, they had hoped for executive clemency. Francis also confessed to murdering a peddler some time ago and burying his remains under a tree. The hanging was one of the most disgusting that has been witnessed in Tennessee in long time.

The drop fell at 12:15, and Turney's neck was broken, he dying instantly. Francis, however, was not so fortunate. The rope had been tied bringingly around his neck and slipped under his chin so that he had no difficulty in breathing and did not strangle. He was allowed to hang and groan for several minutes. The execution occurred in a pen sixteen feet square and fifteen high.

THE FIRE RECORD.

Heavy Losses at Pittsburg and Scranton, Pa.—Fires Elsewhere.

SORRANTON, Pa., March 29.—The massive store building on Wyoming avenue, known as Library Block, occupied by Cleveland, Sampson & Taylor, dry goods, and a number of lawyers and insurance agents, was gutted by fire Wednesday night. Cleveland, Sampson & Taylor's stock of dry goods was valued at \$300,000, but their loss is probably

covered by an insurance of \$100,000 on the building and contents. The loss to other occupants of the building will aggregate about \$20,000.

The carpet and wall paper establishment of Williams & McAnulty, adjoining the burned building, was badly damaged by fire and water.

The Library block is owned by Cleveland, Sampson & Taylor, and the H. S. Pierce estate.

PITTSBURG Foundry and Machine Shop.

PITTSBURG, March 29.—The foundry and machine shop of McIntosh, Hemphill & Company, covering the block between Twelfth and Thirteenth streets and Pike street and the Allegheny river, was almost wholly consumed by fire Wednesday morning. It is thought that the fire originated in the copola over the ingot shop. Two firemen were caught under the timbers of a heavy crane, overthrown by a falling wall. Fireman Harvey, of the Seventh avenue engine company, was probably fatally injured. The other fireman was not seriously hurt. The latest estimate places the loss at \$110,000; insurance \$100,000.

KENNEY, Illinois, Almost Wiped Out.

BLOOMINGTON, Ill., March 29.—The president of the town board of Kenney, Ill., which was almost destroyed by fire Wednesday night, involving a loss of \$100,000, telegraphs to the mayor of Bloomington asking for pecuniary assistance, and stating that many are homeless and homeless and devoid of food and clothing. The mayor has called a mass meeting for the purpose of raising money to send to the afflicted town.

In a Louisville Military Store.

LOUISVILLE, Ky., March 29.—At 8:50 Wednesday night fire was discovered in the rear cellar of Nos. 420 and 422, West Main street, occupied by Reiser & Company, milliners, causing \$30,000 damages to stock, and \$12,000 to building; fully insured. The adjoining building occupied by Hewitt, Field & Company, sustained a damage of \$5,000, also fully insured. Origin of fire unknown.

A Nashville Range Works.

NASHVILLE, Tenn., March 29.—The Tennessee Range and Manufacturing company's works were destroyed by fire early Wednesday morning. Loss, \$45,000; Insurance, \$23,000. Origin believed to be incendiary.

Hotel at Olean, New York.

OLEAN, N. Y., March 29.—The Corry house in this place was burned at an early hour. But little of the contents was saved. Loss about \$10,000.

MURDER OR ACCIDENT?

Mutilated Body of a Drummer Found Near Muncie, Indiana.

MUNCIE, Ind., March 29.—Tuesday night, about 8 o'clock, Harry Bateman, a traveling man, of Fostoria, O., went to the livery barn of Collins & Long and procured a horse and buggy, saying that he wanted to drive about four miles in the country. Early Wednesday morning his body was found near the Bee Line railroad, one and a half miles from town, with his head severed from the trunk and both legs cut entirely off.

There was a contusion on his forehead made by a blunt instrument, which gives cause for the theory that he was murdered and then placed on the track, to make it appear that he had committed suicide. When found he had on his person \$1.80 and a United States express receipt, showing that he had sent yesterday \$4 to the secretary of the United States Accident Insurance company, of New York city.

The evidence that corroborates the theory of murder is that he wore a light-colored overcoat when he left the city, but when found the coat was missing. The horse returned to the livery barn forty minutes before the train mangaged his body. The police are doing all they can to ferret out the mystery.

Experiments in Steel Manufacture.

PITTSBURG, March 29.—A number of gentlemen from Louisville, Ky., have spent some days at Homestead steel works of Carnegie, Phipps & Company, with Benjamin Cathey, of this city, making experiments with the Redman-Tiford process of manufacturing steel, which it is said will revolutionize the process of steel making in the near future. The gentlemen are negotiating with the Carbon Iron company for the purchase of the steel plant lately owned by Messrs. Graff, Bennett & Company, which will be removed to Louisville to fully demonstrate the value of their invention. Mr. Cathey is well acquainted with their requirements, and advised the purchase of this machinery, having managed this mill for a great number of years.

RITUAL IN CHURCH.

ROME, March 29.—An enormous crowd assembled at the church of San Carlo to-day to hear the famous preacher, Father Agostino. Several persons insulted the preacher and a riot ensued. Many arrests were made.

Boulanger's Illness Causes Gossip.

PARIS, March 29.—Gen. Boulanger continues indisposed. He is unable to receive visitors. There are numerous stories current about his ailment.

CHINESE HAVE A RAILWAY DISASTER.

SHANGHAI, March 29.—A disastrous collision is reported on the Taku and Tientsin railway, resulting in many deaths.

FOREIGN NOTES.

The Hon. Patrick Fraser, judge of the outer house of the high court of justice of Scotland is dead.

The Austrian emperor and empress have abandoned the usual Maundy-Thursdays ceremonies owing to the illness of the empress.

Mr. J. MacDonald Cameron, Liberal member of parliament for Wick, Scotland, sailed Thursday from Southampton for New York on the steamer Lahn.

The last steamer belonging to Capt. Wiseman's East African expedition sailed from Hamburg for Zanzibar with a number of officers connected with the expedition.

The Baltic timber yard, near Buckingham palace was destroyed by fire Thursday. Several firemen were injured by the fall of a huge pile of lumber. The damage is said to be £60,000.

Lord Mandeville was Thursday pronounced

AMERICAN PORK.

France Likely to Adopt Measures to Exclude It.

YANKEE HAMS BRING THE HIGHEST PRICES IN THAT COUNTRY.

The Same May Be Said of Germany and England—John Bull Alarmed at the Invasion—Our Dakota Tin Mines Also Disturb Him—The Austrian Emperor Falling In Health—Notes.

LONDON, March 29.—It is now pretty certain that a measure which has been delayed by the copper flurry will be urged in the French chamber as soon as is thought advisable. The rural deputies, egged on by their constituents, have succeeded in partially excluding American pork, lard and other hog products, thus raising their price for the benefit of the French hog raiser.

The enemies of the American pig, in justification of their course, circulate every now and then through the press dire stories as to the diseases produced among innocent consumers, stories probably libelous, as the smuggled Yankee porker brings the highest market prices, although sold altogether as a French product.

The same state of things exists in Germany, while in England American hams, such commodities as cheese, fruit, flour and other articles are vended as products of Great Britain. In fact, John Bull looks with alarm upon the increasing invasion and inquiries where it will end. Even us regard one of the firmest props of his industry as being alarmed by the reports of statisticians. His coal is becoming exhausted, and of course growing higher in price, and the proposed coal trust will carry it still higher by contracting the production. The miners are alarmed and will fight the mine owners.

Some pessimistic financiers foretell a speedy panic in London. The nitrate schemes are especially looked upon with suspicion and many holders are withdrawing at a loss. The project to form a combination of tinplate manufacturers to control the price and amount of production received a check when on the point of consummation by the receipt of private reports concerning the tin mines discovered in Dakota.

While many of those interested in the proposed combination look at the stories of their richness as exaggerated or altogether untrue, prudence demands a further investigation. One Jewish capitalist is known to have invested heavily in the Dakota fields on the strength of reports sent to him by a relative in America and the amount of money he has at stake is enormous.

The mines of Cornwall are worked with ever increasing difficulty and expense. The Banca deposits are the only others of known value and the product of this distant Mayan district is uncertain. The South Wales and Worcestershire tin plate makers look with alarm at the possibility of having to contend with factories established in the heart of the country which is by far their best customer. It may be looked upon as certain that if the situation proves to be as critical for them as it now seems they will make a desperate effort to gain control of the Dakota mines at any cost.

The Austrian Emperor and Empress.

NEW YORK, March 29.—A special to the World from London says: My Paris correspondent writes: "I met at the Elysee a friend who had just arrived from Pesth. He told me that Emperor Francis Joseph has become an old man, bowed down, and with a snowy head, moustache and whiskers. The empress strove heroically for some weeks, against the misfortune that came upon them both; beginning to collapse, she was ordered to Corfu. She has refused, however, to leave the emperor, whose moral energy is not equal to her. But she must soon place herself again under Dr. Motziger, for she is threatened with a kind of paralysis that proceeds from the hardening of the cords of the spine."

SUICIDES AT MONTE CARLO.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

FRIDAY EVE., MARCH 29, 1890.

The Prohibitionists of Fleming County are in the field with a nominee for the Legislature. His name is W. B. Evans, and he hails from Plummer's Landing.

BROTHER HAVENS, of the Dover News, thinks it rather strange that the west end of the county can't scare up a candidate. It does look like the West-enders are not office-seekers.

The twenty-fifth volume of the Kentucky Reports of the decisions of the Court of Appeals is now ready, and for sale by the State Librarian, instead of the Secretary of State, as was the custom in the past.

The Legislature of Ohio has passed a bill requiring Township Trustees to furnish themselves and each Justice of the Peace a copy of the Revised Statutes. It will cost throughout the State about \$55,000, and is said to be a job in the interest of certain publishers.

The statement comes from Washington that 3,352 appointees of former Republican administrations retained their places under Cleveland. These were paid over \$4,400,000 per annum in salaries. And yet some Republicans insist that Cleveland was not a civil service reformer.

There are four vacancies in the City Council of Ripley to be filled at the election next Monday, and there promises to be as lively a fight as that a year ago. Local option is the one question at issue, and both sides are preparing for the fray. The "dry" ticket is composed of J. A. Sivers, W. T. Yearsley, W. B. Campbell and Al White.

The August Republican died this week at the age of "two years, four months and three days." Brother Morris says the death was caused by "the post-office struggle and its complications, an inability to collect outstanding accounts, and in order to make his word good, (which has been considered a bluff by those high in the party)." He will resume his old position on the Chronicle next Monday.

The papers all note the arrival of Colonel Wm. O. Bradley at Washington City, and state he does not intend to ask President Harrison for any office. The Colonel is on high horse it seems, and no doubt considers it beneath his dignity to join in the scramble for "privileges." All the same are we confident he would like to receive a nice, great big slice. The Kentucky brigade should see that it is handed to him on a silver waiter.

As the Kentucky Historical Society, organized and opened in 1882 with great promise of fruitful yield in historic inquiry and mementoes of State interest, was finally abandoned in its purpose for want of an annual appropriation by the Legislature, Governor Buckner has directed that the room set apart for the society in the third story of the State house be closed and the collection of relics and various papers of family histories be confined to the keeping of the State Librarian.

The True American says: "While pious Wanamaker will run the business end of the postoffice department, First Assistant Clarkson will apply the practical politics. Clarkson's idea of practical politics may be inferred from the fact that he was Quay's representative in the purchase of the stolen subscription lists of the Prohibition journal, the Voice, and Quay's tool in sending out anti-prohibition documents to the subscribers of the Voice. It is unnecessary to say that Clarkson's great animating purpose will be the turning of the rascals out of the postoffice and mail routes of the country."

INDUSTRIAL NOTES.

Signs of Progress Throughout the State—Kentucky Enterprise.

Not a house is vacant in Versailles. Georgetown aspires to a street car line. Harrodsburg has water works under consideration.

Georgetown wants the Kentucky Midland railroad shops.

A \$20,000 opera house is soon to be built in Mt. Sterling.

Russellville's magnificent tan yard is beginning to boom again.

The Lebanon Electric Light Company has just been incorporated.

The work of surveying the Paducah and Tennessee railroad was begun Saturday.

Initiatory steps are being taken toward building a street railway in Mt. Sterling.

Mt. Sterling has let the contract for a public school building that will cost \$25,000.

Twenty-seven dwelling houses and nine store houses are under construction in Paducah.

Almost every Kentucky town seems on a boom that is the legitimate result of natural causes.

Richmond hopes for public water works in the very near future. Never was there known to be so much building in her midst as there is this spring.

Hartford, Ky., will begin at once to bore for oil and gas. She is to have a new park, Rough river is to be made navigable and the outlook is most flattering for one or more new railroads.

Timber and mineral lands in Warren and Edmonson counties are getting to be in demand in view of the building of the two new railroads proposed.

The first coke from the new ovens near Pineville has been turned out. It is beautiful in texture and color and closely resembles the Pocahontas coke. The new product will soon be on the market.

A new planing mill company with capital sufficient to carry on a large business has been organized at Henderson with H. Klymeier as President. The company will build at once and equip their mill with the finest machinery.

Worse Than Snobbery.

[Frankfort Capital.] There is no snobbery like that which is current in the United States. For instance, one of the fellows who dishes up Washington news for the press telegraphs his paper as follows:

Mr. John C. New went to drive with the President on Saturday evening at 4 o'clock, dined with him at 6:30, smoked with him from about 7:30 to 10, and then walked over a good portion of the City of Washington with him before he went to bed. Mr. New was so tired out by the time the President gave him that he did not get up until nine o'clock this morning, and so failed to keep an engagement he had to accompany the Chief Magistrate to the sanctuary. Although his legs were still tired, Mr. New's mind was as bright as ever, and his friends often see him as good natured as he is today.

There is but one thing lacking to the perfection of this picture. It should have been stated who Mr. New slept with Saturday night, and whether or not he slept.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to clean the system when costive or bilious. For sale in 50 cent and \$1 bottles by all leading druggists.

In Custody on a Serious Charge.

Henry Coleman, a colored blacksmith at Minerva, was arrested yesterday by Marshal Heflin on a warrant issued by Judge Coons, and lodged in jail. Coleman is charged with robbing James Hiatt, an old farmer living near Minerva, of nearly \$200. The offense was committed a month or so ago. Mr. Heflin has been working on the case for several days. The accused will be given a preliminary trial tomorrow morning at 10 o'clock.

Hiatt was robbed of a large sum of money a year or so ago, and the guilty parties have never been arrested.

THE PUBLIC LIBRARY.

Entertainment to be Given to Raise Funds for Contemplated Improvements to the Building

A public meeting was held at the Council Chamber yesterday afternoon at 4 o'clock in the interest of the Public Library.

The meeting was in response to a call issued by the Board of Directors of the Maysville and Mason County Historical Society.

Mr. J. G. Hickman was called to the chair. He stated that the object of the meeting was to make arrangements for raising funds to complete some improvements in the library building on Sutton street. The Directors contemplate putting in galleries and arranging two reading rooms, one on the first floor for ladies and one above for gentlemen. A small amount of money has been raised for this purpose, but much more is needed. To raise the necessary funds, it has been decided to have an entertainment at the opera house on the 15th of May.

This entertainment is to be of a literary and musical character. Hon. W. H. Wadsworth has been requested to deliver an address, and a fine musical programme is to be rendered under the supervision of Dr. J. T. Strode and Miss Sara P. Wilkins, the latter of Hayeswood Seminary and Director of the Musical Club.

Messrs. John Holton, William E. Shackson and L. W. Galbraith were appointed an executive committee to arrange committees of ladies in each ward of Maysville and in the county precincts to canvass the city and county and sell tickets for the entertainment.

Rev. R. B. Garrett and Messrs. W. D. Hixson and W. P. Campbell were appointed a committee to publish such facts as will be necessary to inform the people of the requirements of the library, and to awaken an interest in the matter.

A resolution was passed inviting and urging Hon. W. H. Wadsworth to deliver an address at the appointed time.

The meeting then adjourned. Another meeting will be held April 5th at 4 p. m., to hear reports from the various committees and transact other business.

Base Ball.

As the East-enders cannot muster up sufficient courage to meet us in battle array, we have made arrangements to play a game with a nine picked from First and Second wards. We do not expect to put up a perfect game, but if greeted with moderate crowd, will do our best to give a good exhibition of the national game. Game called at 2:30 tomorrow afternoon at grounds near denon. "PICKED NINE."

We are authorized to state that the East-enders will play the "Picked Nine" for a purse of \$100.

Colonel R. G. Stoner, of Paris, has sold the chestnut colt, Goodell, for \$3,000.

Thomas Clay, Mt. Gilead, raised 1,236 pounds of tobacco on three-quarters of an acre of land and sold it for \$100.

A correspondent of an exchange thinks 8 cents a pound will be the top price for tobacco a year from now, if the acreage this year isn't largely reduced.

It is evident from the rate which 2:30 trotters are multiplying that a few years hence, certainly within another decade, the 2:20 trotter will be as common as the 2:30 one was ten years ago.—Exchange.

A palace car costs about \$12,000 complete.

The Lexington council still refuses to submit to the voters of that city a proposition to donate \$35,000 to secure the C. and O. car shops.

It is said that by the first of May seventy trains will pass over the Cincinnati Division of the C. and O. daily—thirty-five each way.—Dover News.

Paris is quietly working to secure the K. C. shops. It is said that \$50,000 and a large tract of land—even the fair grounds if the company desire them—would be given to secure the shops.

Conductor James McKusker has charge of the Maysville accommodation now. He was recently employed on the Northern Pacific. He is a genial fellow, handsome, polite and accommodating, and is certain to please the people along the route.

The Greenup Gazette says: "Harry Wadsworth, of Maysville, came up the other evening, and next morning, accompanied by Deputy County Clerk Charles Davidson, drove up near Russell to the residence of H. A. Mead. His visit to Mr. Mead was, as attorney, to close the trade for all that portion of Mr. Mead's land lying north of the C. and O. railroad. The trade was consummated, and Mr. Mead received a draft for \$32,000 for that portion of his farm—160 acres more or less. We are informed that the land was purchased for the C. and O. railroad, although the deed was made to some man in New York City. It is said car shops will be put up on these lands. If this report is true it will give the town of Russell a boom that will push her out of recognition of her neighbors."

ANOTHER WONDER

The New Torpedo Boat Now Building at Bristol, R. I.

HER SPEED WILL EQUAL, IF NOT EXCEED, THAT OF THE VESUVIUS.

Description of the Death-Dealing Little Craft — Pennsylvania's Governor Assailed by a Retired Army Officer. Newly Appointed Officials Assuming Their Duties—National Notes.

WASHINGTON, March 29.—A dispatch from Bristol, R. I., says:

The work on the new torpedo boat for the navy is fast nearing completion, and the Herreshoffs expect to have it ready for trial during the coming May. Its hull is all in place, and the turtle-back shaped deck is finished except the fitting of a few more steel plates.

The government demands that this vessel shall make twenty knots an hour on the official trial. At the time the contract was signed the Herreshoffs estimated the boat's speed for the trial run at twenty-three knots an hour. Naval officers confidently believe that this new torpedo boat will prove as great a wonder as did the Vesuvius.

The boat is 137 feet in length, has a beam of 14 feet and 6 inches, and a depth of hold of 8 feet. Its draught will be 3 feet and 7 inches. As it will lie in the water it will present only three feet of free board along its whole hull, save at the forward part, where the whale-back deck will have a rise of some feet from the water's edge. The chances are that the long craft will go right through the sea like a swordfish, without waiting to mount the waves.

She is to carry a secondary battery of two six-pounder rapid fire guns, presumably to be mounted somewhere on her turtle back.

Pulled His Nose.

WASHINGTON, March 29.—The trouble between George A. Armes, a retired officer of the army living in this city, and those having charge of the Harrison inaugural parade culminated Wednesday afternoon in scene in the rotunda of the Riggs house. About 4:30 Maj. Armes walked into the hotel, and, after a few words, pulled the nose of Governor Beaver of Pennsylvania.

The governor was not hurt, but he was angry, and, stonying himself against the hotel counter, he seized his crutch, which serves him in place of one leg he left behind during the war, and aimed an ugly blow at his enemy. Armes dodged the blow and it struck one of the pillars of the hotel rotunda. A second blow also missed its mark, and Capt. Hewes, the hotel policeman, rushed up, attracted by the noise, and placed Armes under arrest. Armes was released by direction of the hotel manager, however, and escorted out of doors exclaiming: "I palled his nose, anyway."

New Officials About to Start In.

WASHINGTON, March 29.—Messrs. Bacheler and Tichenor, assistant secretaries of the treasury, will assume their new duties Monday next.

Messrs. Thompson and Maynard, incumbents, will sever their official relations with the department Saturday afternoon.

Mr. Byrnes, the new appointment clerk, will also take hold Monday.

Mr. Youmans will remain as chief clerk until April 15, when he will be relieved by Mr. Brackett.

Mr. Mason, commissioner of internal revenue, has returned to Washington from a visit to his home in West Virginia, and will take the affairs of that service under immediate consideration.

It is expected that most of the present bureau officers will be relieved next month.

Appointments.

WASHINGTON, March 29.—The president has sent to the senate the following nominations:

Cassius M. Barnes, of Arkansas, to be receiver of public moneys at Guthrie, Indian Territory.

John L. Dille, of Indiana, to be register of the land office at Guthrie, Indian Territory. Charles E. Monteith, of Idaho, to be agent for the Indians of the Nez Perce agency in Idaho.

And a number of postmasters.

Power of a Congressman's Signature.

SCRANTON, Pa., March 29.—The removal of Dr. W. Connolly, the Democratic Postmaster at Scranton, by the president was done at the instance of the congressman from Scranton. Connolly, whose commission would expire next January, refused to resign, and the congressman preferred charges against the management of the office. The president decided that such charges over the signature of congressmen are sufficient for the removal of postmasters.

President Harrison's Envelope.

WASHINGTON, March 29.—President Harrison received his first month's salary Wednesday. It amounted to \$3,889.88, and was delivered to him in the form of a treasury draft. It was for the month of March, minus the first three days. Mr. Cleveland received the president's salary for that portion of the month.

New Confirmed.

WASHINGTON, March 29.—The senate has confirmed the nomination of John C. New, to be consul general at London.

Opposition to Halstead.

WASHINGTON, March 29.—The opposition to the nomination of Murat Halstead to be minister to Germany has developed more strongly. There were seven Republican senators who felt hurt at the criticisms passed upon them for supporting Senator Payne during the contest over his election in the senate. Some of these senators still hold a grievance against Mr. Halstead and friends of the administration say that if Mr. Halstead is confirmed it will be by Democratic votes.

Halstead's Appointment.

NEW YORK, March 29.—The opinions of the New York press is divided in reference to the appointment of Murat Halstead, of Ohio, as minister to Germany.

The Tribune has nothing to say editorially.

The World says he has agreed for the whose he gave his party in the past.

The Press says he is just the man for the place.

The Sun says his confirmation is doubtful owing to his attacks upon the Republican senators in the past.

The Times says his nomination will not be confirmed.

EX-Congressman's Millions.

WASHINGTON, March 29.—A bill for partition has been filed by Mary E. Patten and others against Augusta Patten, Glover and others, with Henry E. Davis as attorney for claimants. The bill recites the last will and testament Anastasia Patten and the real estate left by said will, and prays that process may issue requiring the defendants to answer; that certain conveyances to John M. Glover may be decreed null and void, and that partition may be made under the direction of the court among the claimants. Glover is an ex-congressman from Missouri. Mrs. Patten died last summer, leaving an estate valued at several millions.
